To all our Japanese friends and students

We are thinking a LOT about you all in Japan and are worried for you all.

We miss you but are happy that we didn't go to Japan during this bad Corona Virus time. But we miss you all terrible.

Are you all all right?. We sincerely hope so.

Please write to me (Vibeke) through messenger and tell me how you are. I will LOVE to get messages from you all from time to time.

I will read them to Jan and we will have a good time doing that (he is still working because his job is part of response emergency in crises)

Please, please listen to what your government advises you to do and how to handle the Corona virus. It will break our hearts if any of you gets sick because you didn't follow the guidelines.

TAKE CARE

We LOVE YOU ALL
